Working with Student Affairs

Student Affairs is a unique combination of educational enhancement, service delivery and facility management. We are dedicated to serving students from every school, college, and division and each degree level, from undergraduate to Ph.D. In your role, you may encounter student issues that you will need to contact or work with Student Affairs in order to help the student or to address an issue. For those intersections, Student Affairs looks forward to working with you to assist students.

Below are some resources you may find helpful:
