Student Affairs provides essential programs and services that enhance academic success and personal development for more than 29,000 students enrolled in undergraduate, graduate and professional programs at the University. Student Affairs supports the mission of the University of North Carolina at Chapel Hill by fostering learning and success within the context of high quality co-curricular programs and services.

We work to provide and maintain the best possible environment for students to live and learn in while removing and reducing barriers to their educational progress. Through initiatives like Excellence in Action, Student Affairs supports students in integrating their academic and co-curricular experiences into a set of 21st century skills which effectively prepare them for success at and after Carolina.

Every unit in Student Affairs pursues a mission grounded in these concepts and is dedicated toward a simple notion: Each and every single student that comes to Carolina, deserves both opportunity and support to grow, learn and achieve their vision of success.

Mission Statement

Student Affairs serves the University of North Carolina at Chapel Hill in collaboration with academic programs by providing transformational opportunities for students in the areas of student life, health & wellness, leadership & service and diversity.

We promote student success, access and inclusion by cultivating and leveraging partnerships with faculty, staff and families as well as local, state, national, and global organizations. We challenge and enable our students to become compassionate and responsible citizens and leaders by fostering an accessible, inclusive, culturally diverse living and learning campus environment.

Vision Statement

Student Affairs at UNC-Chapel Hill believes that every student can achieve success through full access to and inclusion in a wide range of academic, student life and campus learning experiences.
Student Affairs draws on a set of clearly defined values and best practices to identify strategic priorities deemed critical for realizing our mission and enacting our full potential for fostering student learning and success.

Our core values emphasize leadership and service, health, wellness, safety and resiliency, inclusion and accessibility, a culture of learning, ethics and integrity.

These values complement our University’s mission, and provide a framework to systematically plan and deliver the vast array of programs, services, and learning opportunities provided across Student Affairs. Across 2014–2015, Student Affairs fully or partially met 92 percent of our annual departmental goals. Departmental goals align with and contribute to the achievement of the following Strategic Goals.
1. To provide quality learning experiences.

To support our commitment to fostering student learning and success, Student Affairs developed Excellence in Action, a competency-based initiative emphasizing Dynamic Learning, Honor, Personal Responsibility, and Community Engagement. In focusing on these four elements across co-curricular programs and services, Student Affairs is making a significant contribution to delivering a 21st century education that prepares students to thrive in a complex and changing world.

The University of North Carolina at Chapel Hill enrolls over 29,000 students each year. Our students come from diverse cultures and communities, and they engage in living and learning with diverse sets of beliefs and perspectives. Whereas a large, diverse student body enriches the campus community, it can present occasional challenges in terms of safety and inclusion. Student Affairs plays a significant role in promoting a safe, supportive and inclusive campus environment.

2. To promote a safe, supportive and inclusive campus environment.

To provide quality learning experiences.

Some actions contributing to the achievement of Goal 1 include:
